User Instruction Booklet	4213 094 5969A
Loom	4213 076 56426

To identify if your dryer has been built with a 4 rib belt and 4 groove pulley a prefix of /20 can be found after the 12 digit code on the rating plate.
IMPORTANT - PLEASE NOTE: The 3 rib belt is NOT interchangeable with the 4 groove belt and vise versa.

From 06th August 2007. All machines will be built using Mid White plastic and painted parts. To identify these machines /21 is added to the rating plate.
All parts affected are indicated by bold text.

To identify If your dryer requires the three bearing set (Item 387a), /23 has been added to the rating plate.

Older dryers fitted with one rear bearing should NOT have the three bearing set installed as the upper two recesses on the back panel do not the have securing tabs.
